

Problem 2

Problem 2

Problem 1 Use the graphs and the given definitions of the following two functions to answer the questions below.

- (a) Find the domain of f and the domain of g .

Problem 2

(b) *Is $f = g$? (Why or why not?)*

(c) *Looking at the graphs, find $\lim_{x \rightarrow 1} f(x)$ and $\lim_{x \rightarrow 1} g(x)$.*
