

Problem 3

Problem 3

Problem 1 Given the following graphs of f and g (both piecewise linear functions), define new functions $u(x) = f(g(x))$ and $v(x) = f(x)g(x)$. Find:

(a) $u'(1)$

(b) $v'(1)$

(c) $\lim_{x \rightarrow 1} \frac{\sqrt{g(x)} - 1}{x - 1}$
