

Problem 1

Problem 1

Problem 1

Problem 1 Consider the following two figures depicting the same graph $y =$

Problem 1

- (a) *In Figure 1 on the left, what are the coordinates of P and Q ? In Figure 2 on the right, what are the expressions for the coordinates of P and Q ?*
- (b) *Express the slope of the secant line through P and Q in terms of the above coordinates for each Figure 1 and Figure 2.*
- (c) *Express the slope of the tangent line at the point P in terms of the above coordinates for each Figure 1 and Figure 2.*
- (d) *What is the difference?*
- (e) *For each of the two graphs, which lines are the secant lines?*
- (f) *For each of the two graphs, which lines are the tangent lines?*
